KING VIDEOCABLE
COMPANY ADVISES OF
RATE INCREASE

cc-22(c)

A letter was presented from King Videocable Company advising that effective April 1, 1988 it *is* increasing the rate for its package that includes basic service plus two premium services. Further, the letter advises that on April 1, 1988 King Videocable will begin providing 35 channel service, with 30 channels **provided** on basic service.

Tom Peterson
City Manager, City of Lodi
221 West Pine
Lodi, CA 95240

Uear Tom:

King Videocable is increasing 1 rate effective April 1, 1988. Those customers effected will be notified of the change March 1, 1988 per ordinacce #1370.

Also on April 1, King Videocable will begin providing 35 channel service, with 30 channels provided *on* basic service. Just a year ago we began rebuilding the cable TV system in Lodi and Woodbridge. We're pleased to report that 140 miles of system will have been replaced when we finish the work in April.

Although the new channel lineup has not been finalized, we have begun previewing the new services to be added. These include Arts & Entertainment, CSPAN I and II, The Discovery Channel, Nickelodeon, The Weather Channel, and Giantsvision.

We're very proud of the service we provide to our customers in Lodi. We're celebrating 20 years of service to lodi, and celebrating with the industry, the progress we've made in bringing the best in entertainment and information to our customers. April is National Cable Month!

Sincerely,

Deanna Enright
General. Manager
